## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,3,21,35-37, 39, 41-43 are rejected under 35 U.S.C. 102(b) as being anticipated by Willmann (U. S. Patent no. 5,044,70).

See figure, brake operating member 1, brake master cylinder 7, brake cylinder 25,26,29,30, sensing device (stroke detector 39,40 wheel speed sensors 35), assisting device 13, control provided by ECU 36, reservoir 48, pressure source 46, solenoid valves 49,54,58,60. Modulation of the assisting pressure (based on wheel speed) independent of pedal position is discussed on Column 4 lines 3-8.

***Claim Rejections - 35 USC § 103***

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 38 and 40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Willmann in view of Schramm et al.

Willmann is relied upon as above. Willmann does not disclose redundant sensors to detect pedal operation. Schramm et al teaches redundant sensors to detect pedal

Art Unit: 3683

operation. It would have been obvious to one of ordinary skill in the art at the time the invention was made to use redundant sensors to detect pedal operation as taught by Schramm et al in the system of Willmann in order to provide a more reliable system.

***Response to Arguments***

5. Applicant's arguments filed 6/9/04 have been fully considered but they are not persuasive. Applicants argue that there is no change means. The examiner disagrees. The change means is defined as a change of the relationship that exists under normal operation. Willmann discloses modulating the pressure under ABS. The relationship (modulation of the pressure) is different from the normal operation of the brake system of Willmann.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
